Skills
5+ years fl studio
1+ years marketing
3+ years in sales
I have been working in n out of studios 5+ years
I am a recording audio engineer for all genres of music
I helped start a indie label called free spirt entertainment last year with my friends.
I marketed all their music for acouple months and did some good numbers for them.
Record over a dozen artists and I've 200 songs
I recorded 3 e.ps For my friend in my home studio he released.
I'm also on the way to start a clothing brand with my friends called 630fficial we're still in the designing stages

Notes
I love music and everything that comes with it not just the creative side but also the business side. Ever since a kid this is all I wanted to do I invested a lot of money, time and tears for music it's all I ever do morning till night. I'm a quick learning humble ambitious human being who's ready for anything and will give my best at anything I do. I'm just real thankful for any opportunity
